

PHILADELPHIA, PA 3D EXPOSITION AND OPEN HOUSE

ABC Imaging will be hosting a 3D Printing Exposition and Open House on June 16th at our location in Philadelphia, PA. This event is one of many in a series of ABC Imaging Expositions and Open House events that focus on our 3D printing and 3D scanning services.

ABC Imaging has held several events in this series including sessions in our newly remodeled 3D printing center at our New York City location and at our headquarters in Washington, DC. These events were well attended by both existing and new clients who were interested in incorporating ABC Imaging's 3D services into their design workflow.

At our upcoming 3D Exposition and Open House, individuals can expect to:

- Learn more about ABC Imaging's 3D services, which include model building services, 3D scanning services, 3D file repair services, and more.
- Discuss projects and applications with ABC Imaging's 3D specialists.
- Tour the ABC Imaging facility.

ABC Imaging's Philadelphia Store Manager, Josh Goodwin, and Account Executive Scott Friedman, will be present during the two learning sessions on June 16th. During these learning sessions, ABC Imaging's Vice President of 3D Services, Phil Magenheimer, will be discussing the benefits of 3D printing and 3D scanning with ABC Imaging.

Attendees can choose to attend either of the following sessions:

June 16th

Session one: 12:00 PM – 1:30 PM

Session two: 5:00 PM – 6:30 PM

Both sessions will be held at
1900 John F. Kennedy Blvd.
Philadelphia, PA 19103

To RSVP for this event, please call Larry Gottenberg at 202-429-8870 x136 or email RSVP@abcimaging.com.
